THE TRUSTILE OPPORTUNITY

The Well-Designed Home

Dedicated to the highest level of design and quality, TruStile® doors blend the latest technology with hand craftsmanship. Consider the important — and often overlooked — role doors play as a critical element in home design:

- Doors unify the architectural integrity of the home.
- Other popular design features — granite countertops, appliances and plumbing fixtures — often affect just one room.
- Doors are touched dozens of times each day. Quality doors with a substantial feel signal that the entire home is high quality.
- In addition to aesthetic value, high-quality doors provide noise reduction and privacy.

**HANDCRAFTED
AND
CUSTOM MADE**

Our team of craftsmen, designers
and machinists ensure only the best doors
leave our shop.

TS3160 Common Arch Pair
in MDF

THE TRUSTILE OPPORTUNITY

Premium Architectural Doors

There was a time when doors were appreciated for their architectural value, gracing the openings of homes and embodying the principles of their design periods.

At TruStile, we miss those days. Committed to partnering with architects, home builders and homeowners, we're reviving the rich tradition of building high-quality, architecturally-correct doors with a range of customization options to fit your preferences and your home's unique character.

**NEVER JUST
A DOOR®**

A door is an invitation. A possibility.
A transformation. It's what you make it.

Any Door, Any Style, Any Size

We design our doors with separate components that fit together precisely to create crisp, distinct lines. Each door’s precision-engineered profile creates depth and shadow lines that enhance its architectural setting, rather than simply filling an opening.

TruStile Doors
Enhance
Every Design

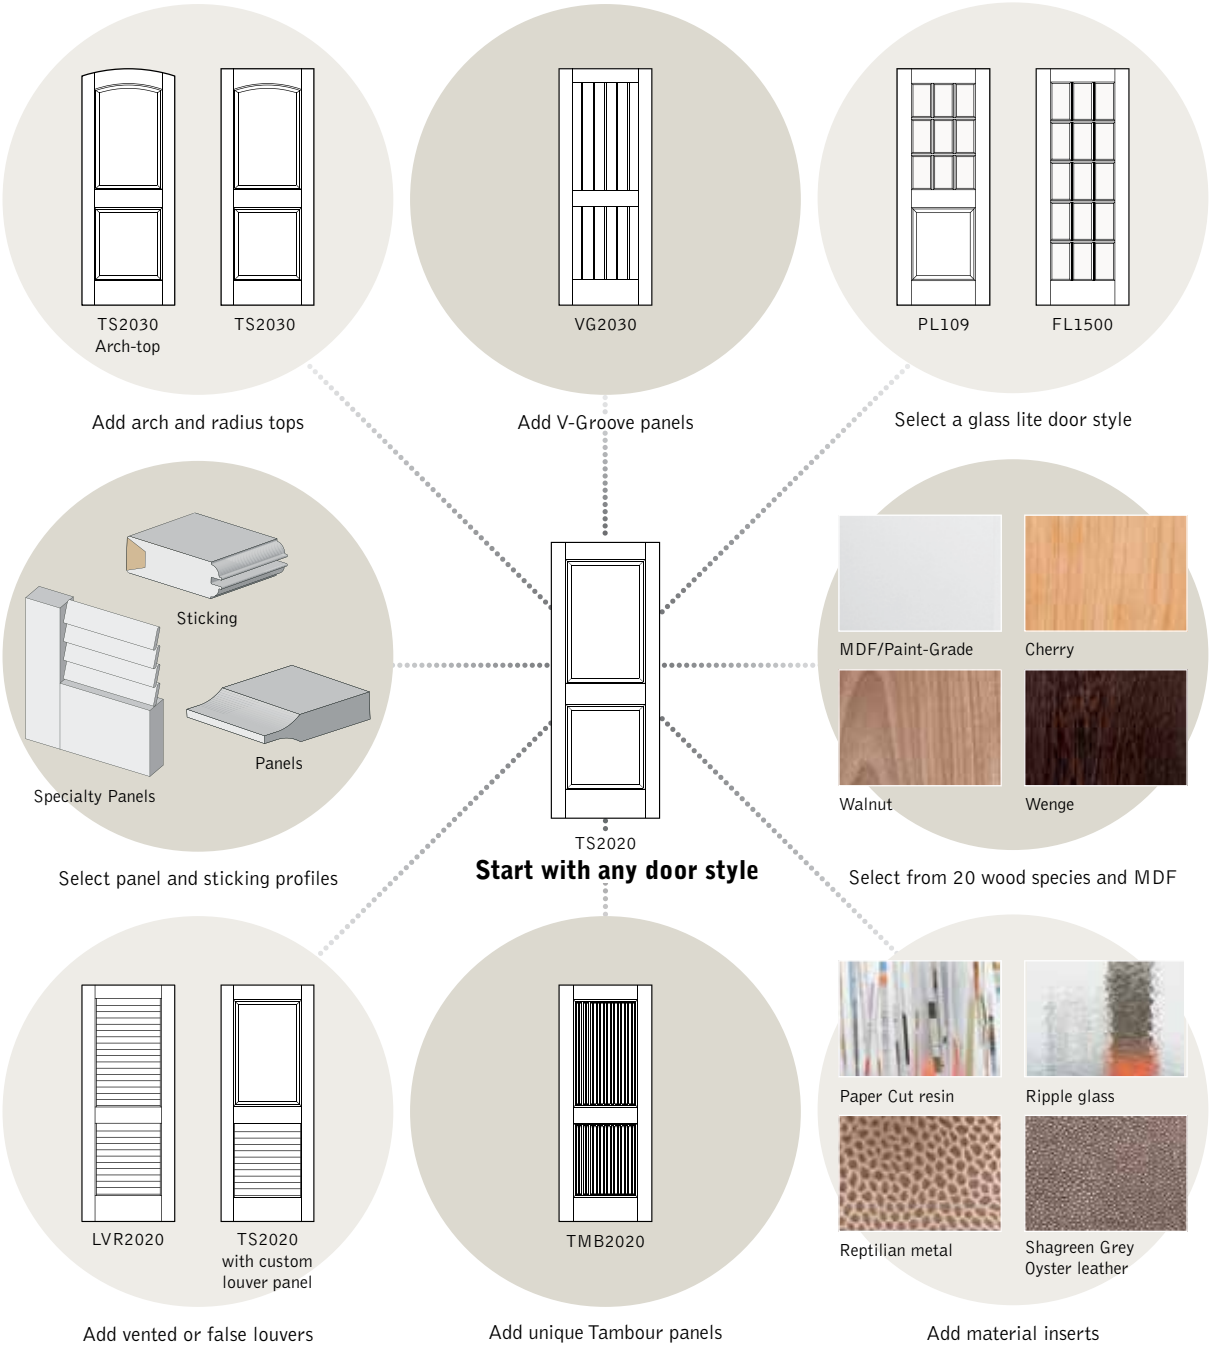

THE TRUSTILE OPPORTUNITY

How to Build the Perfect Door

TruStile boasts over 400 made-to-order door styles in any size, 20 wood species, MDF, 66 panel and sticking profiles and 64 material insert options. If you don’t see the right door in our catalog, we will custom build virtually any design your imagination conjures.

VG2070 with Radius-top in
Knotty Alder with V-groove panels

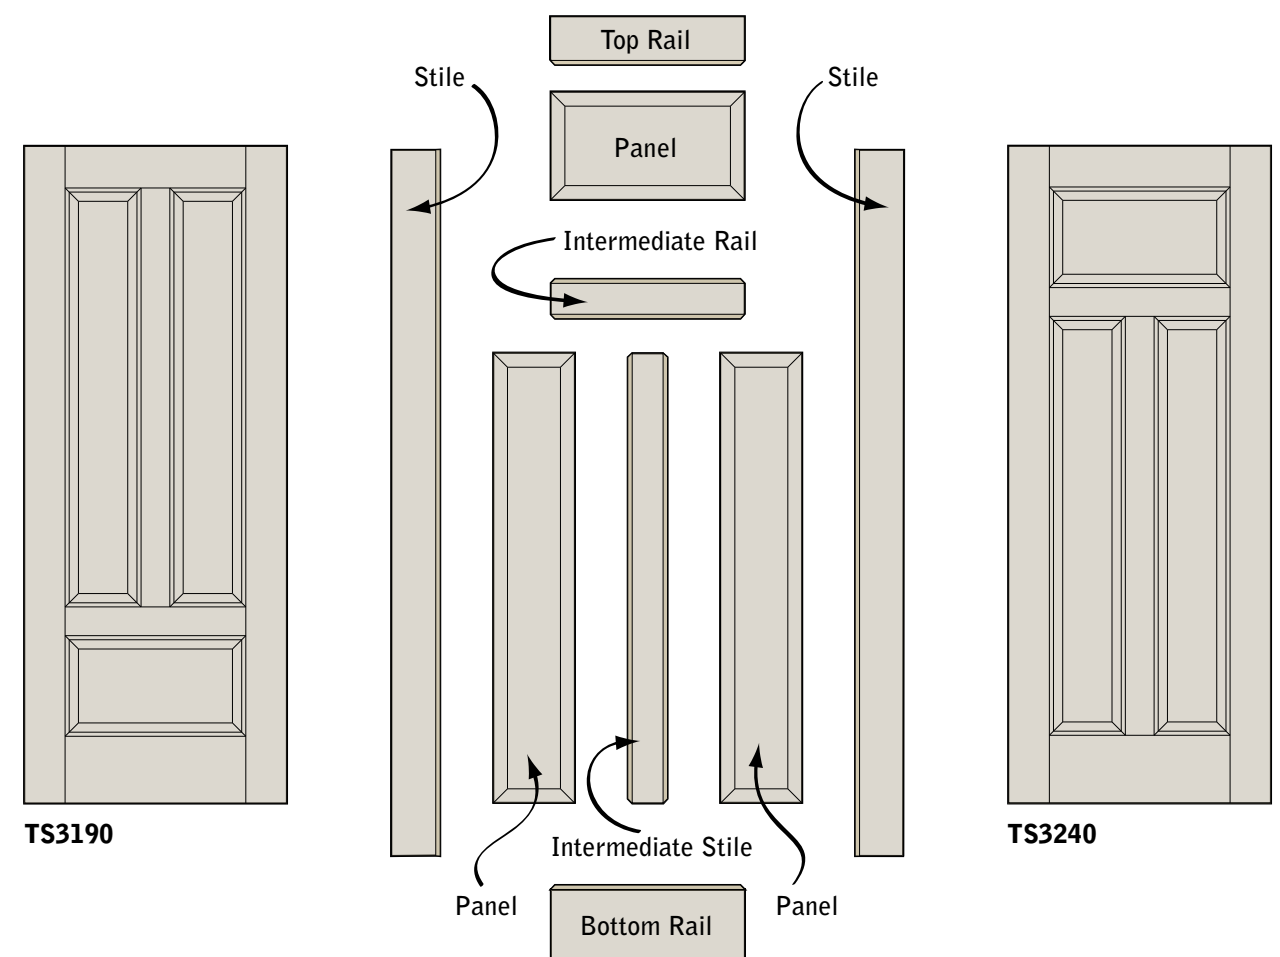

The Architecturally Correct Door

THE TRUSTILE OPPORTUNITY

TruStile doors are made with authentic stile and rail construction. We wouldn't think of routing or stamping a door. Each TruStile door is made-to-order with perfectly proportioned components, created individually to ensure that every door is architecturally correct, regardless of size.

All doors are not created equal.

The figure illustrates the timeless advantage of TruStile's authentic stile and rail construction. All door components can be customized and combined to create the style you desire, while the construction method gives each door crisp, architecturally-correct lines.

Visualize the
TruStile Difference

BEFORE

All too often, a flush or six panel door is the default choice even in high-end custom homes that include an otherwise impressive selection of amenities and upgrades.

Other manufacturers have focused on value-engineering doors, thus diminishing their structural and design integrity.

However, the visual impact of high quality architectural doors is dramatic.

Authentic Designs®

Where do you begin to choose the right door design for your home? TruStile's Authentic Designs makes the selection process fun and easy.

With a range of materials and options for 12 popular architectural styles, TruStile provides the highest quality designs on the market today.

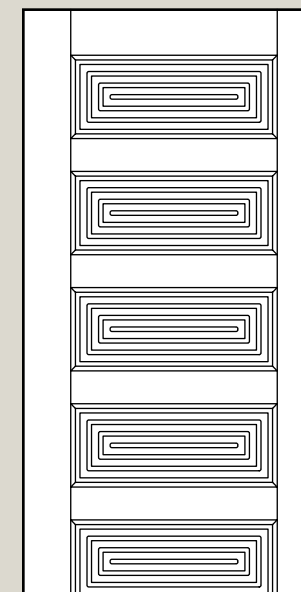

Read on and be inspired with just a few of our tantalizing options for distinctive, remarkable doors.

ART DECO

Making the Great Gatsby
feel right at home.

An eclectic style decorated with geometric shapes
and accents of metal and glass.

- The Art Deco design style began after WWI and flourished in the 1930s and 1940s, waning after WWII.
- While there are no distinct guiding design principles of Art Deco, there are stylistic elements connected by common themes: the decorative, the commercial, the fashionable and the symbolic.
- The TruStile Art Deco door styles combine modern European design ideas introduced in France with the romance of 1930s Hollywood.

COLONIAL

Where Betsy Ross would happily take a sewing break.

An authentically American style characterized by stately, historic design features.

- A variety of architectural styles developed throughout the 18th and 19th centuries as the English, Dutch, Germans and French settled in America.
- Characterized by symmetry and balance, formal surface design and ornamentation with special attention to doors and windows.
- Authentic TruStile doors from the Colonial collection provide classic grace and elegance along with an early American sensibility.

CONTEMPORARY

Up-to-date styles with eco-friendly stiles.

A forward-looking style that is uniquely yours.

- Contemporary architecture is the current building style of today.
- Characteristics of contemporary homes are unique or odd shaped frames, open floor plans, oversized windows, connected indoor and outdoor spaces and warm interiors.
- TruStile's Contemporary series is an eclectic collection that borrows ideas from different eras. Popular elements are clean lines and the use of natural, sustainable materials.

COTTAGE

COTTAGE

It's like a nice
spring day and fresh
lemonade.

A comfortable style that reflects architectural simplicity.

- The American cottage style of architecture was inspired by the English countryside and features a cozy, almost storybook character.
- Characteristics include steep roofs, arched doors and casement windows. A variety of natural materials can be used ranging from wood siding, stone, shingles and copper.
- TruStile's Cottage series represents historically accurate door styles in both panel and glass configurations, as well as updated interpretations of the historic designs.

CRAFTSMAN

We're sticklers
for Stickley.®

A simple style focused on natural materials
and an attention to period details.

- The American Craftsman style emerged from the English Arts & Crafts movement of the late 1800s and was a reaction to the overly decorative Victorian era.
- Emphasizes simplicity of form, originality and local natural materials.
- Simplicity and quality workmanship define the TruStile Craftsman door collection.

FRENCH COUNTRY

FRENCH COUNTRY

For the Francophile
in us all.

An eclectic yet decidedly French style that evokes
classic European appeal.

- From elaborate Ecole-des-Beaux-Arts inspired Chateaus to stunning estates in Provence, the French Country style includes decorative detailing, organic floral patterns, distressed woodwork and the use of both subdued and vibrant tones.
- Whether your tastes lean toward the formal Chateau style or the relaxed provincial style, TruStile's French Country series will take your design sensibilities back to the high style of French art and architecture.

MEDITERRANEAN

For a casually grand,
vibrant vibe.

An enduring trend in American architecture and
interior design that expresses a Tuscan sensibility.

- Inspired by the Italian Renaissance, Mediterranean designs appeared in American architecture between the late 1800s and early 1900s. This movement drew heavily on Italian palaces and seaside or country villas.
- Mediterranean details include arched windows and doorways, recessed entryways, red tiled roofs and stuccoed walls.
- TruStile's Mediterranean collection brings the richness and charm of Italian living to your home.

Minimalist aesthetic.
Maximum style.

Clean strong lines. Bold accents. Custom design options.

- Early Modern architecture took root in the U.S. in the 1920s and reached its peak in the mid 20th century.
- Characterized by simplification of form, an absence of ornate detail and a belief that “less is more”, Modern style has streamlined horizontal lines and uses industrial materials such as concrete, steel and glass.
- TruStile’s Modern Door Collection is centered around crisp, stacked rails, clean strong lines, oversized stiles, custom design options and bold accents.

SPANISH COLONIAL

SPANISH COLONIAL

Welcome Don Quixote home
from his adventures.

A warm style that exudes a sophisticated
design with ornate touches.

- The Spanish Colonial style of architecture was popular in the early 20th century and was embraced in both Florida and California, as well as the southwestern U.S.
- This style is characterized by smooth stucco walls, low pitched roofs, arched entryways and small porches or balconies.
- TruStile's Spanish Colonial series showcases doors with simple lines associated with today's Mission-inspired architecture as well as decorative Spanish Revival door designs.

TRADITIONAL

TRADITIONAL

Oh-so-proper proportions.

Traditional design often reflects the common sense principles of practicality and functionality.

- Broadly defined, Traditional or vernacular architecture is viewed as a conservative way of building homes to retain the style and beauty of a particular community based on the localized design and historic context.
- On the East Coast, this style is most often associated with Cape Cod, Shingle or Americana styles, while in the Western U.S. the American Ranch style is predominant.
- TruStile's Traditional series reflects the classic and historic design ideas of an earlier time and place.

TUDOR

TUDOR

These doors speak with a charming English accent.

Tudor architecture reflects a return to a more conservative and formal aesthetic.

- The Tudor period was a distinct part of the Revivalist period in architectural history.
- The Tudor home features steeply pitched gabled roofs, high chimneys, tall mullioned windows and half-timbering.
- Inspired by English manor homes, the TruStile Tudor series features an assortment of elegant designs and gentle arches.

VICTORIAN

Victoria and Albert's
lasting legacy.

Where unconventional ideas took root and
elaborate styles came to light.

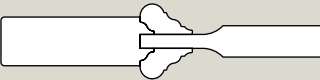

- The Victorian era of architecture reigned from the 1830s until the beginning of the 20th century and was known as a period of romanticism.
- Ornamentation such as gingerbread detailing or Victorian lace is frequently used. Roof lines tend to be accented with hipped gables, towers and dormers.
- The ornate nature of the TruStile Victorian door line effectively reproduces this historic time period within your home.

Product Line Overview

TruStile is not your typical door manufacturer. We are laser focused on making the finest, longest-lasting doors in the business. Authentic stile and rail construction across three product lines ensures a lifetime of enjoyment. Choose from TruStile MDF, TruStile Wood or TruStile Reserve™ Wood. Each is designed from the finest materials to elevate every home’s design.

TruStile MDF
TruStile Wood
TruStile Reserve™ Wood

Matching Profiles Across All Materials & Styles

You no longer need to settle for wood doors that have different profiles and rail dimensions than your paint-grade doors. TruStile has engineered all of our door styles and profiles to match across our MDF and Wood product lines.

Good Design
is Elemental

TRUSTILE QUALITY AND CONSTRUCTION

Three Construction Methods

Why three construction choices? Because you want the perfect design at the best value to match the application. From a pair of decorative glass doors to sound-controlling theater doors, we've got your design-driven solutions.

TruStile MDF Doors

The best possible door for painted applications, TruStile Paint-Grade Doors use only super-refined MDF, providing unrivaled smoothness and finishing.

TS2070 in MDF
with Radius top

TruStile Wood Doors

Made in the authentic stile and rail manner, TruStile Wood Doors use a premium mix of materials that exceed industry standards for a natural look.

TS4100 in Walnut

TruStile Reserve™ Wood Doors

Engineered to the highest quality, TruStile Reserve™ Wood Doors blend the latest technological advances with the most stringent visual appearance standards in the industry.

TS2020 in MDF with Custom sticking and Senior Raised (E) panel

Ideal for Painted Applications

TRUSTILE QUALITY AND CONSTRUCTION

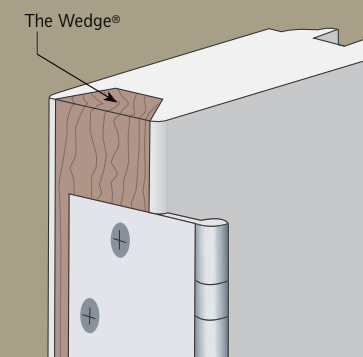

TruStile MDF Doors

TruStile MDF Doors provide quality that is unrivaled. Our super-refined MDF material and meticulous construction methods result in a painted door product that is a cut above the rest.

- Made to order and built to any size and style.
- Built with genuine stile and rail construction — never routed or stamped.
- Made with solid, super-refined MDF that provides a smoother painting surface than pine, poplar or lower-grade MDF alternatives.
- Engineered for maximum stability and durability — won't shrink, expand or warp when exposed to environment.
- More affordable than wood doors.
- Third party certified by Scientific Certification Systems to contain 75% recycled content, making them ideal for green building.

HARDWOOD WEDGE EDGE SYSTEM

TruStile MDF doors come standard with The Wedge,[®] our field-proven hardwood edge system. Designed to stand up to daily use, The Wedge provides superior rigidity, stability and screw-holding power.

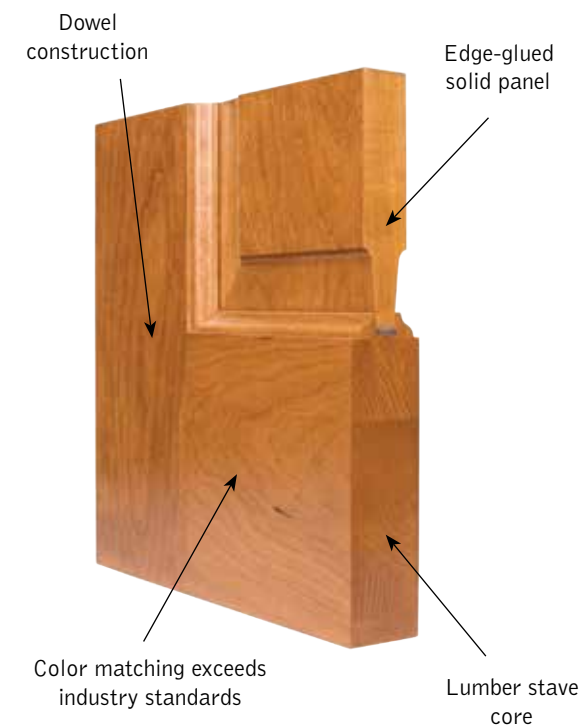

TS6110 in Walnut with White Lami glass

For the Harmonious Home

TRUSTILE QUALITY AND CONSTRUCTION

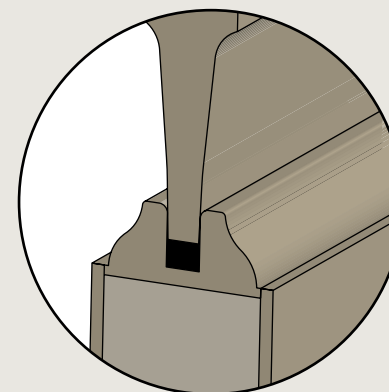

TruStile Wood Doors

Made in the authentic stile and rail manner, TruStile Wood Doors use a premium mix of materials that exceed industry standards for a truly natural look.

- Parts are tested and sorted into a premium mix of components that exceed industry standards. All components are blended for color and grain pattern matching.
- Edge-glued solid wood panels for a premium look and feel.
- Traditional dowel construction creates a solid joint.
- An engineered stave lumber core is cut to size with alternating grain patterns, which balances the core and reduces wood's natural tendency to move.

Floating Panel System

PANEL RETENTION

TruStile doors are engineered with a unique floating panel system that allow expansion and contraction while securing the panel to prevent shifting, settling and rattling. Flexible cushions are inserted into the stile and rail grooves followed by the panels that rest against them. The cushions allow the wood to expand and contract while holding the panel in position.

Premium Wood Door Construction

We offer the broadest selection of wood species on the market. Choose from 20 standard selections of the finest, hand-selected veneers and lumber. Or custom order virtually any species.

Perfection is
in the Details

TRUSTILE QUALITY AND CONSTRUCTION

Factory Pre-Finishing

TruStile offers a premium finishing capability that accentuates the natural beauty of our doors. Our exclusive process combines hand-wiped stains with a catalytic conversion varnish that results in an exceptionally beautiful finish luster.

REFLECT THE HIGHEST STANDARDS

Specify a full-length, built-in mirror on
the back of any of our panel doors.

The Possibilities are Limitless

Here are just a few ways you can use our TruCad® Door Design Tool to make your door not just fit but truly complete your design.

OVERSIZED STILES AND RAILS

On the **PARTS** tab, specify your custom dimensions.

CUSTOM ARCH DIMENSION

On the **PARTS** tab, specify your Custom Arch to match other architectural features in your home.

Our TruCad® Door Design Tool Allows Complete Customization

TRUSTILE DESIGN OPTIONS

With TruStile’s exclusive web-based software, you can design your own custom door. Specify the height, width and location of all the stiles, rails and mullions within a door. Make your door your own at trustile.com.

BEGIN HERE → On the **MAIN** tab, choose your door style.

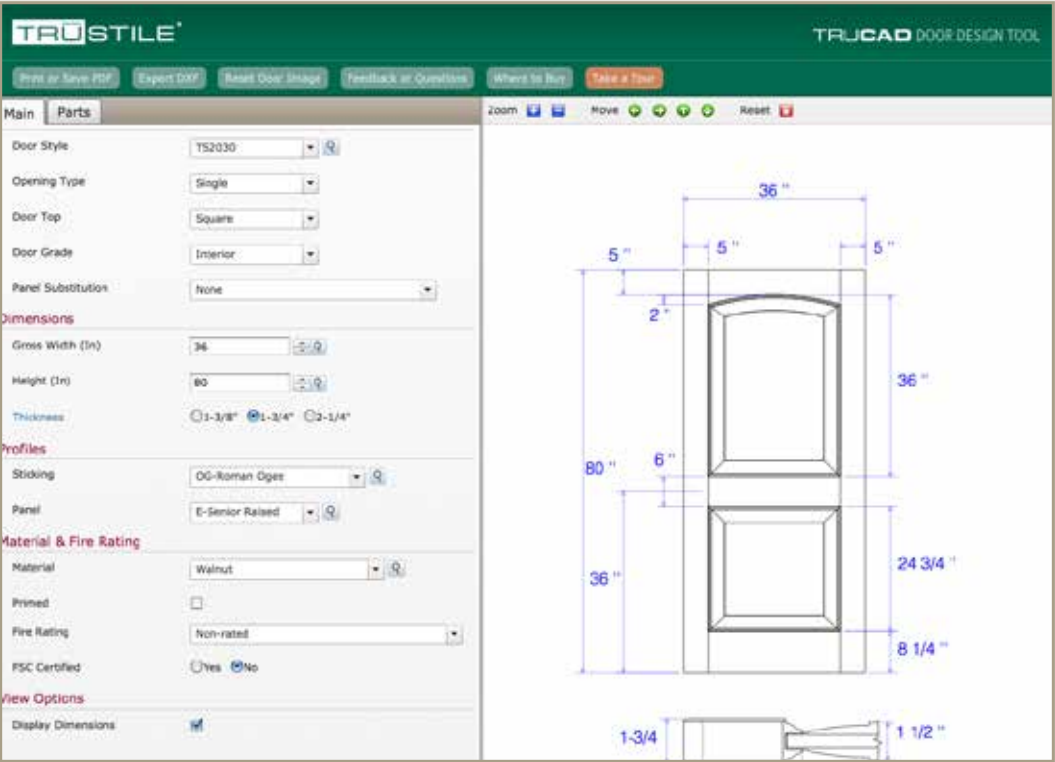

The tool will complete your specifications to our standard default measurements.

SPECIFY LOCK RAIL PLACEMENT

On the **PARTS** tab, specify your custom dimensions.

CUSTOM STILE DIMENSION

On the **PARTS** tab, specify inner stiles to balance outer stiles on a Common Arch Pair.

PROPORTION IS EVERYTHING

Create the appearance of equal width stiles on pairs of doors.

TS6090 Radius-top in
Knotty Alder

TS2070 Radius-top in MDF

TS3050 Arch-top in MDF

TRUSTILE DESIGN OPTIONS

Arch and Radius Top

Soften the look of a conventional square-top door by adding an arch or radius to the top. Arch- and radius-top doors create architectural interest and can be used effectively across different architectural styles — from Mediterranean to Colonial.

All of our arch and radius panel and glass doors are available with an arch or radius top. What’s the difference between the two styles? Arch-top doors are slightly arched, while radius-top doors are more rounded.

PROGRESSIVE
DESIGN TOOLS

Our top door styles are available in
both SKETCH-UP and REVIT.

Custom Etched Glass

Looking for something special for a pantry, wine cellar or office door? TruStile can custom etch any pattern, word or logo onto your glass doors. Whether you prefer a clear pattern etched onto frosted glass (negative etch) or a frosted pattern onto clear glass (positive etch), we provide you with a clean, unique solution for customizing any room in your project.

**JUST
IMAGINE**

Visit [trustile.com](https://www.trustile.com) for sample etching patterns or, better yet, send us your own.

YOUR PROJECT YOUR WAY

From hospitality and high-end multifamily projects to health care and educational institutions, TruStile provides the right finishing touches for distinctive projects across the United States.

TruStile's unrivaled lineup of commercial-grade doors can be built to meet any commercial specification — including 20- through 90-minute fire ratings, ADA requirements and sound ratings.

TRUSTILE SPECIALTY APPLICATIONS

TruStile Exterior Doors in MDF or Stain-Grade Wood

TruStile offers all panel and glass styles in exterior-grade MDF and 14 standard wood species. Built with our stile and rail process, exterior doors are backed by our limited lifetime warranty when properly finished and installed with proper overhang protection.

All exterior MDF doors come with our exclusive TruBolt system for added strength

The Sentry Protective System provides a weatherproof seal around all panels and glass

EXTERIOR MDF DOORS

TruStile’s exterior MDF doors receive specially engineered stiles, rails, and panels, along with an exterior-grade MDF material, to ensure they perform in changing environmental conditions. In addition, all exterior MDF doors receive our exclusive TruBolt system with threaded bolts running through the top and bottom rails to ensure structural integrity.

TS5000 in exterior-grade MDF with White Lami glass

TRUSTILE RESERVE EXTERIOR WOOD DOORS

Enhance the beauty of any entrance with a distinctive wood entry door. Our TruStile Reserve exterior wood doors come with engineered LVL stiles & rails that are triple doweled for optimal strength and security. Our Sentry Protection System provides an additional barrier to the elements with a polyurethane sealed channel around the full perimeter of all panels and glass.

TS3040 in Knotty Pine with Rain glass

Sound Transmission Class (STC) Ratings

TruStile has tested its sound doors in operable openings with Zero International sound gasketing packages.

STC rating	Door material	Door styles	Door thickness	Primary seal	Secondary seal	Threshold saddle	Sweep
Zero International hardware used							
39	MDF and wood	60-minute fire door	2¾"	#475	#119	#564	#367
38	MDF	90-minute fire door	1¾"	#188FS	#118B	Flat surface	#369
34	MDF	20-minute fire door	1¾"	#188FS	#118B	Flat surface	#369
34	MDF	TS5000 — TS9000	1¾"	#475	#119	#564	#367
33	MDF	TS1000 — TS4000	1¾"	#475	#119	#564	#367
32	MDF	TS5000 — TS9000	1¾"	#475	N/A	#564	N/A
32	Wood	TS1000 — TS4000	1¾"	#475	#119	#564	#367
30	MDF	TS1000 — TS4000	1¾"	#475	N/A	#564	N/A
30	Wood	TS1000 — TS4000	1¾"	#475	N/A	#564	N/A
30	Wood	TS5000 — TS9000	1¾"	#475	#119	#564	#367

Sound Transmission Class (STC) Examples

TruStile Advantage	STC	Performance	Description
	50 – 60	Excellent	Loud sounds heard faintly or not at all
	40 – 50	Very Good	Loud speech heard faintly
TruStile Door with Correct Gasketing	35 – 40	Good	Loud speech heard but hardly intelligible
	30 – 35	Fair	Loud speech understood fairly well
	25 – 30	Poor	Normal speech understood easily and distinctly
Typical Hollow-Core Door	20 – 25	Very Poor	Low speech audible

Sound ratings are classified by an STC (sound transmission class) number that rates a material’s ability to resist airborne sound. A higher STC rating blocks more noise from transmitting through a partition like a door. Standard TruStile MDF doors achieve up to a 34 STC rating, some 10- to 15-points better than typical hollow-core doors that achieve a “very poor” rating. For openings requiring even better sound performance, TruStile can provide 60-minute wood and MDF fire doors that achieve up to a 39 STC rating.

TRUSTILE SPECIALTY APPLICATIONS

Superior Sound Performance

Noise is an inescapable component of life in the modern home. Because of their weight, solid construction and high density, TruStile doors are the ideal solution to sound proofing a home.

Home theater featuring TS3070 in Mahogany with Custom Porthole window

Certified Fire Door Ratings

Throw away the preconception that you have limited design options for fire-rated openings. With most of our standard panel doors available in up to 90-minute ratings, you never have to sacrifice style when selecting 20- through 90-minute fire doors.

	20-minute MDF	20-minute Wood	45- and 60-minute MDF/Wood	90-minute MDF/Wood
Category	Category A Category B Neutral Pressure	Category A Category B Neutral Pressure	Category A Category B	Category A Category B
Thickness	1 ¾" minimum	1 ¾" minimum	1 ¾" minimum	1 ¾" minimum
Maximum width single	4'0"	4'0"	3'6"	3'6"
Maximum width pair	8'0"	8'0"	7'0"	7'0"
Maximum height	8'0"	8'0"	8'0"	8'0"
Fire Glass max. area	3,145 sq. inches	3,145 sq. inches	1,248 sq. inches – 45 minutes 1,216 sq. inches – 60 minutes	1,216 sq. inches
Standards	ASTM E-152, NFPA 80, NFPA 252, UL10B, UL10C			

*Some door styles and panel profiles are not available in all fire ratings. Verify availability with TruStile.
**Some ratings require metal vision kits.

Fire Rated Glass Doors Also Available

Glass doors are the perfect solution for spaces where a fire door is required by code, but the look of a glass door is preferred. Select from over 120 fire-rated glass doors with any of our standard sticking profiles. Refer to the fire-rated symbol 🔥 in the Door Collections section to see which glass door designs are available in 20-, 45-, 60- and 90-minute fire ratings. Hose stream-approved glass can also be specified.

Matched Dimensions

Stile and rail dimensions can be matched between standard and fire-rated doors.

TRUSTILE SPECIALTY APPLICATIONS

Our Fire Doors are as Stylish as They are Safe

Designed to match non-rated doors, all TruStile fire doors feature full panel relief and are carefully engineered to complement our non-rated doors.

Use TruStile on Your Next LEED® Certified Project

The LEED® (Leadership in Energy and Environmental Design) Green Building Rating System is a national standard developed and published by the U.S. Green Building Council (USGBC). Its purpose is to promote sustainable building that is environmentally responsible, profitable and healthy. TruStile doors also qualify for other green building rating systems. Contact us for details.

TruStile Doors help achieve LEED credits in the following categories for new commercial construction and major renovation projects¹:

LEED credit	LEED criteria	Detailed requirement	TruStile MDF	TruStile Wood
Materials & Resources				
4.1 (1 point)	Recycled content: 10% (post-consumer + ½ pre-consumer)	Use materials with recycled content such that the sum of post-consumer recycled content plus ½ of the pre-consumer content constitutes at least 10%, based on cost, of the total value of the materials in the project.	Qualify—SCS certified to contain minimum 75% recycled content	Not eligible
4.2 (1 point)	Recycled content: 20% (post-consumer + ½ pre-consumer)	Use materials with recycled content such that the sum of post-consumer recycled content plus ½ of the pre-consumer content constitutes at least 20%, based on cost, of the total value of the materials in the project.	Qualify—SCS certified to contain minimum 75% recycled content	Not eligible
7 (1 point)	Certified wood	Use a minimum of 50%, based on cost of wood-based materials and products that are certified in accordance with the Forest Stewardship Council’s (FSC) principles and criteria for wood building components.	Not eligible	Qualify—specify FSC Certified Wood Door 100% of door value counts toward credit
Indoor Environmental Quality				
4.4 (1 point)	Low-emitting materials: Composite wood and agrifiber products	Composite wood and agrifiber products used on the interior of the building must contain no added urea-formaldehyde resins.	Qualify—specify NAUF MDF	Qualify—specify NAUF MDF panel core

TruStile Doors help achieve LEED credits in the following categories for residential home construction projects²:

LEED credit	LEED criteria	Detailed requirement	TruStile MDF	TruStile Wood
Materials & Resources				
2.2 (0.5 points for doors)	Environmentally preferable products	Use building component materials that are environmentally preferable in that they either contain minimum of 50% post industrial recycled content, are FSC certified or reclaimed.	Qualify—SCS certified to contain minimum 75% recycled content	Qualify—specify FSC Certified Wood Door 100% of door value counts toward credit

¹ LEED for New Construction & Major Renovations, Version 3 (April 2009).

² LEED for Homes Rating System, Version 2008 (January 2008).

TS5000 in MDF with White Lami glass

TRUSTILE SPECIALTY APPLICATIONS

Design that Complements the Planet

Our modern, domestic plants use lean manufacturing practices to make extremely efficient use of our raw materials. This minimizes waste and environmental impact.

75% Recycled MDF Doors for Painted Applications

TruStile MDF doors are not only the highest quality paintable doors on the market, they are also the responsible environmental choice. We recycle MDF waste, donating it to agricultural partners who use it to create energy, reducing both landfill waste by 65% and waste pick ups, putting fewer trucks on the road. The green benefits of our MDF doors include:

- Certified by SCS Global Services to be constructed of 75% recycled content.
- Eligible for up to three LEED® credits
- Manufactured with low-emitting adhesives and coated with low-emitting primer.
- Standard MDF is low emitting, meeting CARB (California Air Resources Board) requirements.
- A no-added formaldehyde MDF option is also available.

FSC® Certified Wood Doors for Stained Applications

TruStile’s furniture grade wood doors have undergone an extensive Forest Stewardship Council® (FSC) audit that ensures our doors fulfill all qualifications for FSC certification. The green benefits of our wood doors include:

- Third party certification that all door materials originate from responsible sources.
- 100% of door value contributes towards the LEED credit for Certified Wood Products.
- Manufactured with low-emitting adhesives.
- Green-certified doors contain the same high quality construction and materials as our standard product.

Louver Door Collection

Our Louver (LVR) Door Collection creates architectural interest and enhances a variety of styles. These plantation-style louver doors feature fixed, over-sized louvers in vented and false configurations.

Vented Louver Doors

Vented louver doors permit air flow making them ideal for closets and laundry rooms where ventilation is preferred.

False Louver Doors

False louver doors are ideal for applications where a louver look is desired, but total privacy is a necessity.

Factory Pre-Hanging

Like our doors, TruStile's pre-hung units are built using premium construction techniques, high-quality craftsmanship, and complete flexibility. Available as either pre-hung units or knock-down jambs, TruStile can supply any width and any species for any size door.

Plus all units are shipped with architectural-grade, square cornered, ball-bearing

TruStile hinges. Available in 10 of today's most popular finishes.
